## WINTER WONDERLAND OF LIGHTS

*Flip-the-switch holiday celebration ceremony this Saturday*

**Toronto** – Ontario Power Generation (OPG) is proud to once again sponsor the annual [Winter Festival of Lights](#) in Niagara Falls. More than two million sparkling lights illuminate the eight-kilometre Niagara Parkway route and surrounding tourist district.

“We’re very pleased to be a part of the best winter light festival in North America,” said Gerry Foote OPG’s Niagara Plant Group Manager. “This year, we extended our title sponsorship and we couldn’t be happier. It’s well worth the trip to Niagara!”

The festival begins Nov. 19, with a flip-the-switch ceremony at Queen Victoria Park in Niagara Falls and runs through Jan. 31, 2017. Now in its 34<sup>th</sup> year, the festival attracted more than 1.2 million visitors last year.

OPG’s Sir Adam Beck hydroelectric stations have been using the power of the Niagara River to generate clean and renewable energy for more than 90 years. For the next 10 weeks, this clean energy will help illuminate more than two million lights.

For more information on the OPG Winter Festival of Lights, visit [www.wfol.com](http://www.wfol.com)

OPG generates safe, clean, reliable, low cost power for Ontario. More than 99 per cent of this power is free of smog and greenhouse gas emissions. OPG's power is priced 40 per cent lower than other generators, which helps moderate customer bills.
