STAY CLEAR, STAY SAFE THIS CANADA DAY

Toronto –Heavy rain in parts of Ontario mean higher than normal water levels and flows on many provincial river systems. Ontario Power Generation (OPG) urges everyone to exercise extreme care around dams and hydroelectric stations-

“Water is pure, raw power – power we need to respect,” says Mike Martelli, OPG’s Senior Vice President of Hydro Thermal Operations. “Water around our hydroelectric facilities can turn dangerous quickly and without warning. So please don’t ignore the signs. We want you to stay clear and stay safe.”

The school year is over and the Canada Day holiday is upon us. Many families will be out fishing, boating, swimming and hiking. Before heading out on area waterways, OPG invites everyone to visit www.opg.com/watersafety for more information on how to stay safe this summer and to view our new public service announcement titled “The Power of Water.”
