

# Performance Report for Pickering Nuclear

Q3 2017 Results

## Performance Update

As part of our commitment to keep you informed, this report tracks performance for Ontario Power Generation’s Pickering Nuclear in the areas of safety, operational and environmental performance and significant accomplishments during the third quarter of 2017.

### Electricity Production – (the electrical energy generated, minus station needs):

OPG’s nuclear electricity generation for Q3 of 2017 totalled 11.3 terawatt hours (TWh) compared to 11.7 TWh in 2016 in the same quarter. In Q3, Pickering Nuclear produced 5.9 TWh of electricity, which was 16 per cent of the electricity produced in Ontario.

### Reliability – Unit Capability Factor:

Compared to Q3 in 2016, Pickering’s unit capability factor for Q3 2017 was higher (83.83) primarily as a result of a decrease in the number of days the station was shut down for maintenance outages.

### Environment – Spills to the Environment:

During Q3 2017, there were no spills to the environment at Pickering Nuclear that were reportable to a regulatory authority. The year-to-date total remains at one spill.

## Safety

### Accident Severity Rate:

The Accident Severity Rate (ASR) measures the number of lost days due to employee injuries per 200,000 hours worked. In Q3 2017, Pickering Nuclear recorded 0.15 days lost per 200,000 hours worked.

### Employee All Injury Rate:

The All Injury Rate (AIR) measures the number of workplace injuries per 200,000 hours worked. In Q3 2017, Pickering Nuclear recorded 0.07 injuries per 200,000 hours worked.

### Legend

## About OPG's Nuclear Power Stations

Ontario Power Generation owns and operates the Pickering and Darlington Nuclear Generating Stations. The two stations have a combined generating capacity of about 6,600 megawatts. Accounting for 30 per cent of the electricity produced in Ontario in Q3, OPG's 10 nuclear units generated 11.3 terawatt hours.

Keeping you informed about milestones and items of interest achieved by Pickering Nuclear and across OPG:

- Hundreds of children and their families joined OPG this summer for another successful Tuesdays on the Trail program. With the generosity of our valuable community partners and student volunteers, Pickering staff are able to bring high-quality, educational and free activities to our community once again. This year's programming included: partnerships with Toronto Region Conservation Authority; Scientists in School; Driftwood Theatre Group; Kim Wheatley from Shawanaga First Nation Reserve and PineRidge Arts.
- The Canadian Nuclear Safety Commission (CNSC) has awarded our Pickering and Darlington stations with its highest possible safety rating for 2016. "Ontario Power Generation is committed to providing clean energy while protecting the public, the environment and our staff," said Glenn Jager, OPG's Nuclear President and Chief Nuclear Officer. "Achieving the highest ratings at both of our nuclear stations recognizes OPG's dedication to continuously improve safety." The CNSC report provides a detailed review of our operations and identifies strengths in our performance, as well as opportunities for improvement. It's part of a rigorous industry culture that values assessment and evaluation as learning tools.
- Over 4,100 grade four students across the Durham Region, participated in the 20th Anniversary of the Durham Children's Watershed Festival held this September. This weeklong festival, focuses on increasing the student's awareness concerning water issues while motivating them to become stewards in their homes, schools, and communities. OPG Darlington and Pickering Nuclear are a proud supporter and active participant in this annual event.
- In August, OPG partnered with Skills Ontario to provide campers in grades 7- 9, the opportunity to visit the Pickering Nuclear Information Centre to learn about the significance of electricity, and explained how Nuclear power works. Campers had the chance to participate in some interactive learning, and hands-on experience in the Pickering Engineering Lab and Simulator. Campers were also welcomed by representatives from WIN Durham and OPG Emergency Services Officers and specialized vehicles. The Skills Ontario camps are facilitated in partnership with colleges, industries and community volunteers who are committed to giving the campers an outstanding hands-on experience.
